PROFESSIONAL SUMMARY

Dedicated Cyber Security Analyst and Primary Threat Hunter with a proven track record in complex incident response, proactive threat hunting, and cloud security investigations across global retail enterprise environments. Currently serving as an L2 Security Analyst managing end-to-end incident response, cloud exposure investigations, and threat hunting operations. Demonstrated expertise in rapid malware analysis, SecOps automation, and leveraging CrowdStrike Falcon, Google SecOps, and Wiz to secure critical infrastructure and mitigate advanced threats.

PROFESSIONAL EXPERIENCE

L2 Security Analyst & Primary Threat Hunter | Victoria's Secret (VS&Co)
December 2025 – Present

- Serve as the primary threat hunter for a global retail enterprise, designing and executing proactive threat hunts across endpoint, identity, and cloud telemetry using CrowdStrike Falcon and Google SecOps to uncover advanced IOCs, TTPs, and APT activity.
- Manage the end-to-end incident response lifecycle beyond standard alert triage, successfully investigating and containing critical IR cases and suspected phishing and malware campaigns.
- Conduct deep-dive cloud and attack surface investigations utilizing Wiz, Cloudflare, and Varonis to trace attack paths, assess cloud exposure, and remediate cloud-native security threats.
- Spearheaded rapid malware analysis during an active security incident, extracting malicious indicators and blocking URIs at the network edge prior to automated CrowdStrike EDR detections firing.

Research Assistant (ResAuto & Cyber Observatory) | University of Warwick
September 2024 – March 2025

- Developed vulnerability proof-of-concepts in CheriBSD for automotive embedded systems using Lua and embedded C, simulating memory corruption and privilege escalation attacks.
- Conducted threat intelligence research for emerging exploits in critical infrastructure and leveraged MISP and OpenCTI to analyse IOCs for enhanced incident detection.
- Generated threat trend reports and dashboards to support national security and strategic decision-making.

Cyber Security Intern | TIAA GBS India
February 2023 – April 2023

- Automated risk assessment processes, drastically reducing supplier risk evaluation time from 2 weeks to 20 seconds to enhance audit efficiency.
- Performed in-depth log analysis using Splunk to detect and investigate security incidents in a global SOC environment.

- Streamlined cybersecurity maturity assessments using the CMMI framework for improved senior management visibility.

Project Trainee (ISMS) | Larsen & Toubro EAIC
July 2022 – August 2022

- Conducted ISO 27001 internal audits, resolved major non-conformities, and trained 100+ employees in cybersecurity best practices.

TECHNICAL SKILLS

- **Specialized Skills:** Proactive Threat Hunting, End-to-End Incident Response, Cloud Security Investigation, Malware Analysis, SecOps Automation, Phishing & Email Security Analysis
- **Tools & Technologies:** CrowdStrike Falcon (EDR & LogScale/SIEM), Google SecOps, Wiz, Cloudflare, Proofpoint, Varonis, Axonius, Cequence, Wallarm, Google Threat Intelligence, MISP, OpenCTI, Splunk, Linux, Windows, Python, Bash, PowerShell
- **Frameworks:** MITRE ATT&CK, ISO 27001, NIST CSF, NIS

EDUCATION

- **Master of Science in Cyber Security Engineering (Distinction)** | The University of Warwick (NCSC Certified) | *Oct 2023 – Oct 2024*
- **B.Tech (Hons.) in CSE (Cyber Security and Forensics)** | University of Petroleum and Energy Studies | *Aug 2019 – May 2023*

CERTIFICATIONS & ACHIEVEMENTS

- **ISO 27001 Information Security Management Systems Lead Auditor** – BSI
- **Black Hat USA 2024:** Awarded a student scholarship to attend the prestigious cybersecurity conference
- **ISACA UK Digital Scholarship 2024:** Recipient of the international digital scholarship
